

Job Description – SP Industries, Inc.

Job title:	Controls Technician
Location:	Hopkins, Michigan
Terms:	Full Time
Salary/Benefits:	Based on Qualifications & Experience / Health, Dental, 401k, Short Term Disability, Vacation and Holidays.
Reports To:	Production Manager

- Requirements:**
- The **Controls Technician** must have the ability to interpret blueprints and schematics; along with the ability to translate the drawings into properly laid out and functioning assemblies.
 - The **Controls Technician** must have experience in the use of various electrical and manual tools in addition to experience in using measuring devices. These tools and devices include but are not limited to: grinders, saws, squares, calipers, welders, belt sanders, shears, forming brakes, pipe cutters and threaders, Acetylene and plasma torches, clamps, and various measuring devices.
 - The **Controls Technician** must be able to stand for long periods of time, lift up to 50 lbs consistently, and work in various positions, for example: crouching, kneeling, lying down, and access/work in low (40") spaces.
 - The **Controls Technician** must possess strong communication skills, the ability to work independently with minimal supervision, and work within a team environment.
 - The **Controls Technician** must possess mechanical aptitude and high attention to detail.
 - The **Controls Technician** must have general computer knowledge.

About the Role: SP Industries is dedicated to maintaining the highest level of service, product quality, and product design. We also remain committed to sincerely, professionally, and ethically serving the best interests of our customers. The **Controls Technician** will safely and efficiently assemble, build, install, test, and troubleshoot electrical and hydraulic components per electrical and hydraulic schematics. The tasks could include assembly/wiring of push button boxes, wiring electric motors and transformers, wiring/soldering relay & timer sockets, wiring/assembling circuit boards, installing hydraulic piping on equipment, building hydraulic hoses, and assembling hydraulic power units. The **Controls Technician** will follow all company rules and standard operating procedures.

Responsibilities:

- **Safety** - The **Controls Technician** will follow all established and future safety rules set forth by the company as they pertain to all SP Industries Facilities or specific positions. This includes the use of all PPE including but not limited to: welding hood, gloves, safety glasses, face shield, ear protection, and safety toe shoes.
- The **Controls Technician** will be trained and will adhere to lock out tag out (LOTO) procedures. All SP Industries, Inc. Employees must promote a culture of safety.
- **Operating License** - The **Controls Technician** must obtain and maintain a current forklift and overhead crane operator's license per MIOSHA Regulations.
- **Material and Quality Verification** - The **Controls Technician** will verify material accuracy and perform quality checks to ensure products meet schematic specifications.
- **Material Movement** - The **Controls Technician** is responsible for moving components, supplies, and whatever is necessary to support the department/company. These movements can utilize forklifts, cranes, various handcarts, and manual lifting.
- **Equipment/Facilities Maintenance** - The **Controls Technician** will be responsible for maintaining and reporting any issues with company equipment/facilities that might lead to safety or mechanical issues. This could include completing a daily forklift inspection and completing all necessary paperwork associated with the inspections.
- **Paperwork** - The **Controls Technician** will be responsible for accurately completing forklift inspection forms, job cards, and any other necessary forms daily, both longhand and via computer.
- **Communication** - The **Controls Technician** must be able to work in a cross functional environment, for example: work with other departments including Engineering to correct and improve blueprints and design, leading to more efficient processes and reducing downtime.
- OTHER DUTIES AS ASSIGNED.

Benefits:

SP Industries Inc. offers competitive wages with profit sharing and performance-based bonuses. SP will provide uniforms for this position. Health, Dental, Short-Term Disability Insurance, 401K, Health Savings Account, and continuous improvement/education/training opportunities are available along with paid vacation and 9 paid holidays.
